

TZ 20

Dimensions

350mm (L) X 160mm (B) X 500mm (H)

Ozone Generation

Ozone Output	:	20 grams per hour.
Feed Gas	:	External Oxygen supply required.
Make & Type of Electrode	:	Technozone make / Alumina coated CERAMIC tube electrode with high concentration of ozone.
Cooling tube arrangement	:	Water cooled SS 316 cooling tube. External water supply required.
Automation	:	Fully automated control unit High voltage (>245V AC) & low voltage (< 200 V AC) Indication & cut off.
Construction	:	Stylish GRP body for easy maintenance and solid strength.

Technozone Environmental Solutions Pvt. Ltd.

Corporate Office:

Century Corbel,
Main Road Sahakar Nagar
